

HI, I'M IGA

I was adopted in 2022 from the Wollies Animal Shelter. Back then, I wasn't much of a runner. But one day, I decided to take my human for a jog with our local run club — and just like that, he became **my running partner.**

As we got more into running, he started fetching all kinds of fancy gear. But something was missing — **a hat.** Not just any hat, though. All the ones we sniffed out looked the same and cost a whole lot of treats.

So, we set out to find a better solution:
affordable, custom-designed running hats
for social runners like my human.

And that's how

Igaloo

was born.

Running clubs are about more than just exercise — they're about meeting new people, building community, and having fun. **That's why we create running hats designed just for you, your pack, or your club** — to bring people together.
